BRIEF INFORMATION ON THE PRODUCT

1. What is this product about?	
Applicable Shariah Contract	TIA-i is a term investment account based on a profit-sharing contract, which is known as the <i>Mudarabah</i> contract.
Type of Product	The product is classified as an Unrestricted Investment Account (UA). UA refers to a type of investment account where the Investor(s), who is also known as Investment Account Holder(s) ("IAH"), allows the Bank to make the ultimate investment decisions without specifying any restrictions and/or conditions.
Parties Involved	The parties involved will be the Investor(s) (i.e., the capital provider) and the Bank (i.e., the entrepreneur). The Bank, acting as the fund manager, will invest on behalf of the Investor(s). Under this product, the Investor(s) will not be involved in the investment activities.

PRODUCT SUITABILITY

2. Who is this product suitable for?	
Type of Customer	<ul style="list-style-type: none"> i. Individual(s); ii. Sole-proprietorship(s).
Investment Objective	Aiming to generate stable and consistent returns over an agreed period of time through low to medium-risk investment.

KEY PRODUCT FEATURES
3. What am I investing in?

Investment Strategy	The fund will be invested in selected qualities of Shariah-compliant financing assets which are Property Financing-i, Personal Financing-i, and Term Financing-i within HLISB.						
Investment Amount	<table border="1" data-bbox="416 472 1469 600"> <tr> <td data-bbox="416 472 571 533">Minimum</td> <td data-bbox="571 472 1469 533">RM 500 for board rate</td> </tr> <tr> <td data-bbox="416 533 571 600">Maximum</td> <td data-bbox="571 533 1469 600">RM 250,000 per transaction for board rate</td> </tr> </table>	Minimum	RM 500 for board rate	Maximum	RM 250,000 per transaction for board rate

Maximum	RM 250,000 per transaction for board rate						
Investment Tenure	3, 6, and 12 months.						
Profit Sharing Ratio (PSR)	<ul style="list-style-type: none"> Any profit gained from the TIA-i is shared between Investor(s) and the Bank according to a mutually pre-agreed Profit-Sharing Ratio (PSR). Below is the PSR for board rate and investment tenure applicable: <table border="1" data-bbox="416 846 1469 1039"> <thead> <tr> <th data-bbox="416 846 759 913">Investment Tenure</th> <th data-bbox="759 846 1469 913">Profit-Sharing Ratio (PSR) for Board Rate (IAH: Bank)</th> </tr> </thead> <tbody> <tr> <td data-bbox="416 913 759 976">6-month & 12-month</td> <td data-bbox="759 913 1469 976">68:32</td> </tr> <tr> <td data-bbox="416 976 759 1039">3-month</td> <td data-bbox="759 976 1469 1039">65:35</td> </tr> </tbody> </table> The PSR may also be changed from time to time. If there is any change(s) in the terms and conditions, the Bank will inform the Investor(s) of the change(s) through the common communication channels of the Bank. If excess profit is generated from TIA-i above the indicative profit rate, Investor(s) agrees to forego or waive the excess profit under the Shariah principle of Tanazul. The excess profit will be kept by the Bank. Tanazul refers to the waiver of the right to claim whatever may be specified (which in this context is the excess profit above the indicative profit rate). Under the <i>Mudarabah</i> concept, profits will be shared between the Investor(s) and the Bank according to a mutually pre-agreed PSR. For losses, on the other hand, the financial losses will be borne entirely by the Investor(s) while the Bank, as the Fund Manager (i.e., the Entrepreneur), will suffer losses in terms of time and effort that was spent over the investment and not in monetary terms. The Bank will bear the financial losses if it is due to the Bank's misconduct, negligence, or breach of specified terms. Premature Redemption	<ol style="list-style-type: none"> Partial redemption is not allowed (i.e., withdrawing part of the investment amount is not allowed). Premature redemption is allowed with the below condition(s); <ul style="list-style-type: none"> No profit will be paid for any TIA-i that has not completed its respective investment tenure.
Account Opening	<ol style="list-style-type: none"> For existing CASA/-i under HLB or HLISB account holder(s), TIA-i subscription can be made through HLB Connect. Without CASA/-i under HLB or HLISB, Investor(s) is required to open a CASA/-i under HLB or HLISB over the counter. Alternatively, Investor(s) may apply online through Apply@HLB and follow the steps accordingly. The Investor(s) then will be given the access to HLB Connect to subscribe for TIA-i.
TIA-i Redemption	<ol style="list-style-type: none"> TIA-i can only be redeemed through HLB Connect. The redemption will be instantly credited into the Investor(s)'s CASA/-i under HLB or HLISB. The Bank can suspend any redemption under any exceptional circumstances (e.g., breach of contract, market-wide failures, etc.) and/or in the best interest of the Investor(s).

Note:

The Best and Worst Market scenarios are based on the last 10 years' data from Bank Negara Malaysia (BNM)'s highest (March 2019) and lowest (March 2022) Overnight Policy Rate (OPR) levels, which are assumed to directly impact returns through the full transfer of OPR increase/decrease to portfolio returns, assuming all other factors remain the same.

VALUATION

The Bank will perform the valuation of the underlying assets of the Fund in accordance with the sound industry practice and consistent with applicable Malaysian Financial Reporting Standards ("MFRS") which will be carried out on a monthly basis.

The Fund performance report will be made available together with the quarterly financial statements via website [here](#).

KEY RISKS
5. What are the key risks associated with this product?

(a) Risk of Capital Loss	<p>The product carries the risk of not recovering the full original investment. To control the risk, the Bank will invest the funds in a diversified portfolio of the Bank's low risk qualified financing assets. The Bank will also use sound investment management techniques. The Bank will do portfolio rebalancing to make sure that assets which no longer comply with the fund's strategies and objectives are rebalanced. Portfolio rebalancing is the process of revising the fractions of a class of assets in a portfolio to maintain the desired level of risk.</p>
(b) Market Risk	<p>Market risk is the possibility for an investor to experience losses due to factors that affect the entire financial markets. This may directly or indirectly impact the performance of the underlying assets. The Bank will monitor and manage market risk exposure using the existing risk management system. This allows the Bank to manage the fund's position effectively within the approved risk framework.</p>
(c) Liquidity Risk	<p>Liquidity risk is the risk that the Bank may be unable to meet short-term redemption demands from Investor(s). Based on the historical trend of the redemption activities, the Bank will formulate the stress test and establish controls to manage the liquidity risk. Stress testing is a technique used to test the ability of the investment to withstand various possible future financial situations. Any mismatches in the amount of cash being transferred into and out of the portfolio will be analyzed and monitored under the liquidity framework as recommended by BNM. The potential loss arising from the liquidity risk for Investor(s) is that there may be lower return and possible capital loss.</p>
(d) Credit Risk	<p>This risk may arise when a great amount of the fund's assets goes into default. This will be managed by the Bank through careful selection of diversified qualified asset portfolios and close monitoring of the performance of the selected assets to ensure the investment complies with the fund's strategies and objectives.</p>
(e) Investment Decision Risk	<p>This risk applies if the market movement does not favor the allocation of assets to be invested in. Hence, careful selection and strict governance will be applied by the Bank in the decision-making process.</p>
(f) Regulatory Non-Compliance Risk	<p>Such a situation occurs when the investment fails to follow the investment parameters set by the relevant regulators. The risk will be managed by the Bank according to its overall policies and procedures.</p>
(g) Shariah Non-Compliance Risk	<p>This is a risk that arises from the Bank's failure to comply with the Shariah rules and principles determined by the Bank's Shariah Committee or regulatory councils. The Bank will monitor, with guidance from the Bank's Shariah Committee, to ensure that the investment complies with the Shariah rules and principles.</p>
(h) Country Risk	<p>The political and economic stability of the country may influence the growth and performance of the investment asset.</p>
(i) Industry / Sector Risk	<p>Every industry/sector is exposed to various risk elements. As such, diversification and careful selection of such industry/sector are critical to the Bank in managing such risk.</p>
<p>'You are advised to carefully consider all risk factors before making an investment decision'</p>
