Market Outlook

The financial outlook on the Malaysian Islamic banking are expected to remain stable, albeit at slower pace, supported by strong capitalization and assets growth while asset-quality indicators should stay resilient. Cost management will continue to be an area of focus, emphasised by the Overnight Policy Rate cuts of 25bps by Bank Negara Malaysia (BNM) on 22nd January 2020 and 3rd March 2020 respectively, with the need to sustain a strong liquidity position to support business growth.

Statement of Any Changes

There have been no changes in the Investment Objectives, Strategies, restrictions and limitations during the quarter period.

Underlying Asset Outlook

Based on the Fund Investment Strategies during this review period, the Bank is optimistic on the future performance of the fund until the next review period.
