<b>Investment Structure</b>	<p>Portfolio Investment Account-i (PIA-i) structure consists of multiple series, where each of the series will have its own Subscription Period (SP) of 21 days at the start of the series. IAH investment steps will be in the following manners:</p> <p><b>1. During Subscription Period (Day 1 to Day 21)</b></p> <p>Investors are only allowed to subscribe during the SP of 21 days where the monies placed (net of upfront fees) will be fully invested in Dana Al-Izdihar throughout the SP excluding the placement made by Investors on Day 21. Any profit generated during this period will be included as part of the Investor(s)'s investment amount for Investors who remain throughout the investment activity. No additional subscription is allowed after the SP.</p> <p><b>2. Investment Start Date (Day 22)</b></p> <p>The investment into the 3 Dana will commence on Day 22 which is after SP of 21 days. On Day 22, the funds collected from Day 1 until Day 21 will then be invested into 3 Dana; Dana Al-Izdihar, Dana Maa'rof and Dana Makmur based on their respective Assets Allocations prescribed under Investment Strategy.</p>										

**KEY PRODUCT FEATURES**

**RA Series(s) Timeline**

New series will be launched every 3 months after investment commencement of the previous series while the existing series will perpetually continue its investment. Every series will have its own SP where investors are able to perform the subscription.

Series No.	Subscription Period (SP) (T1-T21)	Investment Start Date (T22)	Profit Distribution Period (PDP)	Next Cycle Investment	Next Cycle PDP	Perpetual Investment
1	1 Jan – 21 Jan	22 Jan – 6 Months	22 July 20XX	23 July – 6 Months	22 Jan 20XX	
2	1 Apr – 21 Apr	22 Apr – 6 Months	22 Oct 20XX	23 Oct – 6 Months	22 Apr 20XX	
3	1 Jul – 21 Jul	22 Jul – 6 Months	22 Jan 20XX	23 Jan – 6 Months	22 July 20XX	

**Subscription Period**

The subscription period (SP) is the period where Investors are allowed to subscribe between the Day 1 until Day 21 of each series. The Investors are not allowed to make any additional subscription after 21 days of each series ended. However, should the Investors wish to subscribe further into PIA-i, the investment can be made in the upcoming new series during the SP. Every new series introduced will be announced in the HLISB corporate website: [www.hlisb.com.my/pia-i](http://www.hlisb.com.my/pia-i)

**Subscription Amount**

<b>Minimum</b>	RM 1,000 (Ringgit Malaysia One Thousand) in multiples of RM 100 per transaction
<b>Maximum</b>	RM 5,000,000 (Ringgit Malaysia Five Million) per transaction

**Renewal Option**
**1. Auto Renewal with principal only**

Principal will be auto renewed perpetually while the profit will be credited into Investor's CASA-i (HLISB)/ CASA (HLBB) within four (4) Business Days after the PDP date. The Investors are able to select their preferred renewal option during subscription.

**2. No Renewal**

Principal and profit will be credited into Investor's CASA-i (HLISB)/ CASA (HLBB) within four (4) Business Days after the PDP date.

**Redemption**

The following conditions are not allowed under general redemption terms:

Scenario(s)	Allowability
Partial redemption	<b>Not Allowed</b>
Redemption or cancellation on the same day of the subscription (during SP)	
Early redemption <sup>1</sup> 4 Business Days before PDP date and on the PDP date <sup>2</sup>	

**KEY PRODUCT FEATURES**

<sup>1</sup> Early redemption of PIA-i is allowed in below scenarios:

Scenario(s)	Return	Crediting Days
Early redemption during SP	Upfront fee will be reimbursed back to Investors and the profit will be waived, if any. The losses will be borne by remaining Investors, if any.	Credited within four (4) Business Days into Investor's CASA-i
Early redemption after SP until 4 Business Days before PDP date <sup>2</sup>	Upfront fee will not be reimbursed back to Investors. The profit will be waived, if any and the losses incurred during redemption will be borne fully by the Investors.	Credited within seven (7) Business Days into Investor's CASA-i

**Important Note:**

- Prior to making any redemption decision, Investors may visit the IA dashboard via Hong Leong Connect to see the estimated investment value. However, the investment value shown in the redemption screen is for reference purpose only. The actual investment value may be changed depending on when redemption request is made. Any losses incurred during redemption before the PDP date will be borne fully by Investors.
- <sup>2</sup>The restriction is to facilitate smooth and accurate profit distribution exercise due to possibility of collision of PDP date and crediting days if early redemption is allowed between 4 Business Days before PDP and on actual PDP date.

**Cut off Time**

The cut off period for any transaction will be between 11.45 p.m to 5.59 a.m everyday. No transaction requests can be performed during this period.

**Profit Distribution Period (PDP) Frequency**

Every 6 months after the Investment Start Date. Investment Start Date begins from Day 22 which is a day after the Subscription Period (SP) ends.

Series No.	Subscription Period (SP) (T1 – T21)	Investment Start Date (T22)	Profit Distribution Period (PDP)
1	1 Jan 20XX – 21 Jan 20XX	22 Jan – 6 Months	22 Jul 20XX
2	1 Apr 20XX – 21 Apr 20XX	22 Apr – 6 Months	22 Oct 20XX
3	1 Jul 20XX – 21 Jul 20XX	22 Jul – 6 Months	22 Jan 20XX

**Profit Payment Method**

Profit payment will be credited into Investor's CASA-i (HLISB)/ CASA (HLBB) within four (4) Business Days after PDP.

**Expected Profit Rate**

- 6% per annum. However, the profit is not guaranteed and may fluctuate from the Expected Profit Rate, depending on the performance of the underlying Danas (depicted by the Net Asset Value (NAV) of the individual underlying Danas). Investors are advised to carefully review the Cumulative Historical Return of Underlying Dana to understand the actual performance of these Danas historically.
- The profit is the return after deducting the management fees charged by HLISAM.

KEY RISK	
<b>5. What are the key risks associated with this product?</b>	
<b>a) Risk of Capital Loss</b>	The product carries the risk of not recovering the full original investment. To moderate the risk, the Bank will invest in the Underlying Dana(s) that consist of 3 unit trust funds that arrive in a blended medium risk category of investment. The 3 Shariah Compliant unit trust funds managed by HLISAM are Dana Al-Izdihar, Dana Makmur and Dana Maa'rof come with specific allocation for each. The Bank will assess the performance of this Underlying Asset on a daily basis in anticipation of the expected profit rate by Investor(s). The Bank will perform portfolio rebalancing within the Investor(s)'s mandate to ensure the Underlying Asset consistently complies with the fund's strategies and objectives. Underlying Asset rebalancing will be done subsequent to assessments and reviews conducted along with HLISAM as and when the need arises.
<b>b) Market Risk</b>	Market risk is the possibility for Investor(s) to experience losses due to factors that affect the entire financial markets which may directly or indirectly impact the performance of the Underlying Dana(s). The Bank will monitor and manage market risk exposure using existing risk management controls. As an additional control, the Bank will assess the market risk volatility on a daily basis to ensure the Underlying Dana(s) performance is managed effectively within the Investor(s) mandate. HLISAM, after consent from the Bank, may take a temporary defensive position in attempting to respond to certain conditions which include but are not limited to adverse market, economic and political conditions, insufficient funds to form an efficient portfolio and periods of high fund redemptions. In such situations, HLISAM with consent from the Bank may reduce its Shariah-compliant equity exposures below the mandated range by reallocating its investments into lower-risk Shariah compliant assets such as sukuk, Islamic money market instruments and/or Islamic deposits. Investor(s) consent to perform this defensive strategy will be obtained upfront during the customer on-boarding process.
<b>c) Liquidity Risk</b>	Liquidity risk is the risk that the Bank may be unable to meet short term redemption demands from customer(s). Based on the historical trend of the redemption activities, the Bank will formulate the stress test and establish controls to manage the liquidity risk. Stress testing is a technique used to test the ability of the investment to withstand various possible future financial situations. Any mismatches in the amount of cash being transferred into and out of the portfolio will be analyzed and monitored under the liquidity framework as recommended by BNM. The potential loss arising from the liquidity risk for customer(s) is that there may be lower return and possible capital loss.
<b>d) Credit Risk</b>	This risk may arise when a great amount of the fund's fixed income and money market instruments go into default. This shall be managed by the Bank through careful selection of diversified qualified asset portfolios and close monitoring of the performance of the selected assets to ensure the investment complies with the fund's strategies and objectives.
<b>e) Investment Decision Risk</b>	This risk applies if the market movement does not favor the allocation of assets to be invested in. Hence, careful selection and strict governance shall be applied by HLISB in the decision making process. The Bank may instruct HLISAM to perform re-allocation of each Dana(s) exposure within the Investor(s) allocation mandate after relevant advice from the Joint Investment Committee. The performance of individual Dana will be assessed by the Joint Investment Committee Meeting which subsequently will be presented to the HLISB's Assets & Liabilities Committee (ALCO) for approval.
<b>f) Regulatory Non-Compliance Risk</b>	Such a situation occurs when the investment fails to adhere to the investment parameters set by the relevant regulators. The risk shall be managed by the Bank in accordance with its overall policies and procedures. The Bank will continue to observe and adhere to any compliance requirements on a regular basis. PIA-i fund will run through periodic Restricted Compliance Self-Assurance (RCSA) exercise and be included into all Regulatory Horizon Scanning activities
<b>g) Shariah Non-Compliance Risk</b>	This is a risk that arises from the Bank's failure to comply with the Shariah rules and principles determined by the Shariah Committee or regulatory councils. The Bank will continue to monitor, with guidance from the Bank's Shariah Committee, to ensure that the investment complies with the Shariah rules and principles. PIA-i fund will apply dual control measures at the Bank and HLISAM entities. One control is through the periodic review by the Bank's Shariah Review and Shariah Risk. All the 3 Dana(s) being the Underlying Assets of PIA-i will also be periodically reviewed by HLISAM Shariah Advisor. Additionally, the 3 Dana(s) has to comply with Securities Commission's SAC of Shariah-compliant Collective

	Investment Scheme which is observed by HLISAM.
<b>h) Country Risk</b>	Political and economic stability of the country may influence the growth and performance of the investment asset. The Bank will conduct periodic stress test as per the existing Bank's risk management controls. The Bank will also consult HLISAM's independent views/opinions on this risk for a more collective measure.
<b>i) Operational Risk</b>	Operational Risk is the risk that occurs when the Bank encounters issues in managing end to end investment processes including the daily management reconciliation. This risk arises from inadequate or failed processes, people, systems or from external sources. The Bank has established controls for all processes to avoid misinformation during data transit.
<b>j) IT Risk</b>	This is a risk that arises from the failure of IT system of the Bank as the on-boarding is only available via online i.e. Hong Leong Connect. The Bank will ensure adherence to the IT policy by BNM and its own internal policies. Main IT risk derives from possible glitches in the form of network time-out in the Hong Leong Connect system. However, the Bank has put in place necessary IT Infrastructure to ensure this product is supported sufficiently similar to other digital based Bank's products.
<b>k) Anti-Money Laundering Risk</b>	This is a risk that arises from customer(s) investing illegal money as defined in Anti-Money Laundering Act (AMLA) into the Fund. The Bank will monitor regularly and on Anti-Money Laundering Activities within its organisation. All Investor(s) is required to own CASA-i/ CASA with HLISB/ HLBB. Prospective Investor(s) are required to open a new CASA-i/ CASA with the Bank in order to subscribe to PIA-i. Subsequent to CASA-i/ CASA account opening, prospective Investor(s) is required to activate the HL Connect Account. Hence, all mandatory on-boarding requirements including AML screening is done at CASA-i / CASA account opening. The PIA-i may only be subscribed via debiting of Investor(s) own CASA-i/ CASA with the Bank of which any redemption will be credited back to the same CASA- / CASA.
