Please seek clarification from Hong Leong Islamic Bank Berhad if you do not understand any part of this document or the general terms.

1. What is this product about?

- CMTF-i is a one-off basis non-revolving Islamic financing facility which complies with Shariah principles that has a predetermined maturity date and payment schedule.
- The Facility is generally used for financing the purchase of fixed assets such as properties or machineries and sometimes for working capital.
- CMTF-i is a fixed rate financing and can also be offered on a multiple tier (level) profit rate. Under this product, the profit rate offered to the Customer at the point of approval remains the same throughout the financing tenure.

2. What is the Shariah concept applicable?

The Shariah principle used *Tawarruq* arrangement which refers to two sale and purchase contracts. The first one involves the sale of an asset by the Bank to the Customer on a deferred basis. Subsequently the Customer will sell the same asset to a third-party to obtain cash.

The mechanics involved in CMTF-i:

1. Bank buys the commodity (which is used as underlying asset)* (at same value as financing amount) from a commodity supplier on spot as principal (Bank now owns commodity);
2. Customer appoints the Bank as an agent (*wakil*) to purchase the commodity and also appoints the Bank as an agent to sell the commodity.
3. Bank sells the commodity to Customer at cost plus mark-up (*Murabahah*) (at same value as selling price) on deferred payment (instalments). Upon the purchase, the Customer now owns the commodity. *Murabahah* is a sale and purchase of an asset where the acquisition cost and the mark-up are disclosed to the Customer.
4. As the owner of the commodity, Customer may opt to:
 - (a) to take physical delivery/possession at his own expense; or
 - (b) sell the commodity to a third party for cash;
5. If the customer chooses 4(b), Bank (as agent of the Customer) sells Customer's commodity (at same value as financing amount) to third party on spot for cash;
6. Bank disburses the sale proceeds (financing amount) to Customer.

* *Commodity:*

- (a) *The commodity is in the form of Crude Palm Oil or any other Shariah compliant commodities to be traded under the Facility which shall be acceptable to the parties and as approved by the Shariah Committee of the Bank;*
- (b) *The trading is carried out on a multi-commodity trading platform such as Bursa Suq Al Sila' or any other commodity trading platform, which facilitates Tawarruq transactions and has been approved by the Shariah Committee of the Bank.*

3. What do I get from this product?
