

IMPORTANT/DISCLAIMER

THIS IS AN INVESTMENT ACCOUNT PRODUCT THAT IS TIED TO THE PERFORMANCE OF THE UNDERLYING / ALLOCATED ASSETS AND IS NOT A DEPOSIT PRODUCT.

PRODUCT DISCLOSURE SHEET

Kindly read and understand this Product Disclosure Sheet before you apply and decide to accept the Term Investment Account-i (TIA-i). Be sure to also read the general terms and conditions.

The information provided is merely general information of the product. The terms and conditions indicated in this Product Disclosure Sheet are tentative and may change at any time. Any changes will be notified to the Investment Account Holder(s) beforehand.

**PRODUCT NAME:
TERM INVESTMENT ACCOUNT-i (TIA-i)
PROMOTION**

(Applicable on 22 March 2021- 30 April 2021)

THIS PRODUCT IS NOT PROTECTED BY PIDM

BRIEF INFORMATION ON THE PRODUCT

1. What is this product about?

Applicable Shariah Contract	TIA-i is a term investment account based on a profit sharing contract, which is known as Mudarabah contract.
Type of Product	The product is classified as Unrestricted Investment Account (UA). UA refers to a type of investment account where the Investor(s), who are also known as Investment Account Holder(s) ("IAH"), allows the Bank to make the ultimate investment decisions without specifying any restrictions and / or conditions.
Parties involved in the investment activities, their roles and responsibilities.	The parties involved will be the Investor(s) (i.e. the capital provider) and the Bank (i.e. the entrepreneur). The Bank, acting as the fund manager, will invest on behalf of the Investor(s). Under this product, the Investor(s) will not be involved in the investment activities.

PRODUCT SUITABILITY

2. Who is this product suitable for?

Type of Customer	<ul style="list-style-type: none"> i. Individual(s); ii. Sole-proprietorship(s).
Return Objective	Aiming to generate stable and consistent returns over an agreed period of time through low to medium risk investment.

KEY PRODUCT FEATURES
3. What am I investing in?

Investment Strategy	The fund will be invested in selected qualities of Shariah compliant financing assets which are House Financing-i, Personal Financing-i and BCB Term Financing-i within HLISB.
Minimum Investment Amount	RM2,000 (Ringgit Malaysia Two Thousand)
Investment Tenure	3 months, 6 months and 12 months
Profit Sharing Ratio (PSR)	<ul style="list-style-type: none"> Any profit gained from the TIA-i is shared between Investor(s) and the Bank according to a mutually pre-agreed Profit Sharing Ratio (PSR) of 85:15 for 3 months, 6 months or 12 months respectively. The PSR may also be changed from time to time. If there are any change(s) in the terms and conditions, the Bank will inform the Investor(s) of the change(s) through the common communication channels of the Bank before the new terms and conditions take effect; If excess profit is generated from TIA-i above the expected profit rate, Investor(s) agrees to forego or waive the excess profit under the Shariah principle of Tanazul. The excess profit will be kept by the Bank. Under the Mudarabah concept, profits will be shared between the Investor(s) and the Bank according to a mutually pre-agreed PSR. For losses, on the other hand, the financial losses will be borne entirely by the Investor(s) while the Bank, as the Fund Manager (i.e. the Entrepreneur), will suffer losses in terms of time and effort lost that was spent over the investment and not in monetary terms. Unless, the losses are due to the Bank's misconduct, negligence or breach of specified terms.
Profit Payment Method	<ul style="list-style-type: none"> Profit payment is calculated daily and credited at the end of the investment tenure (i.e. 3,6 or 12 months). Profit payment will be credited into Investor(s)'s Current Account-i / Savings Account-i (CASA-i) within Hong Leong Islamic Bank (HLISB) or Current Account / Savings Account (CASA) within Hong Leong Bank (HLB), based on the agreed PSR.
Fees & Charges	None

Reinvestment/ Auto-renewal

1. Investor(s) has the options to select the following renewal feature(s):
 - With Auto Renewal:
 - a) Auto renew principal only (P) - Profit will be credited into Investor(s)'s CASA-i (HLISB) or CASA (HLB); or
 - b) Auto renew principal with profit (P+I).
 - Without Auto Renewal – investment will mature at the end of the investment tenure (i.e. 3,6 or 12 months). Principal and profit will be credited into Investor(s)'s CASA-i (HLISB)/ CASA (HLB).
2. Automatic renewals are not considered as active transactions. Moneys kept in investment accounts on an automatic renewal arrangement will be transferred to the Registrar of Unclaimed Moneys (RUM) after 7 years of automatic renewals.
3. If the investment in TIA-i is auto renewed, the indicative profit rate after auto renewal will be equal to the HLISB indicative board rate.

Sample of Profit Calculation

Sample of daily profit calculation is as per the table below.

(Numbers are for illustration purposes only)

Date of Subscription	22 March 2021	Profit Sharing Ratio (PSR)	Customer : Bank 85:15
Principal (Investment Amount)	RM 50,000	Percentage of net return to customer	2.40% p.a.*
Date of maturity	22 June 2021	Investment Tenure	3 months

Note :

- Percentage of Net Return to Customer = Profit Sharing Ratio x Gross Profit
- Profit Calculation = Principal x Percentage of return to customer x No. of days / 365

Profit Payable to the Customer = RM 50,000 x 2.40% x 92/365 = **RM 302.46**

**If there is an Overnight Policy Rate (OPR) change, the indicative profit rate for new subscription (after the OPR change) may be changed.*

Date of Subscription	22 March 2021	Profit Sharing Ratio (PSR)	Customer : Bank 85:15
Principal (Investment Amount)	RM 50,000	Percentage of net return to customer	2.45% p.a.*
Date of maturity	22 Sept 2021	Investment Tenure	6 months

Note :

- Percentage of Net Return to Customer = Profit Sharing Ratio x Gross Profit
- Profit Calculation = Principal x Percentage of return to customer x No. of days / 365

Profit Payable to the Customer = RM 50,000 x 2.45%* x 184/365 = **RM 617.53** *If

there is an Overnight Policy Rate (OPR) change, the indicative profit rate for new subscription (after the OPR change) may be changed.

Principal (Investment Amount)	RM 50,000	Percentage of net return to customer	2.45% p.a.*										
Date of maturity	22 March2022	Investment Tenure	12 months										
Premature Redemption	<ol style="list-style-type: none"> 1. Partial redemption is not allowed 2. Premature redemption is allowed with below condition(s); <ol style="list-style-type: none"> 2.1. No Profit will be paid for any TIA-i that has not completed its respective investment tenure. 												
Account Opening	<ol style="list-style-type: none"> 1. For existing CASA-i / CASA account holder(s), TIA-i subscription can be made through Hong Leong Connect. 2. For non-existing CASA-i / CASA account holder, Investor(s) is required to open a CASA-i over the counter. The Investor(s) will be given the access to Hong Leong Connect to subscribe for TIA-i. 												
TIA-i Redemption	<ol style="list-style-type: none"> 1. TIA-i can only be redeemed through Hong Leong Connect. 2. The redemption will be instantly credited into the Investor(s)'s CASA-i (HLISB)/ CASA (HLB). 3. The Bank can suspend any redemption under any exceptional circumstances (e.g. breach of contract, market wide failures, etc.) and/or in the best interest of the Investor(s). 												
Coverage by PIDM	This product is not protected by PIDM												

4. What are the possible outcomes of my investment?

- Investor(s) may receive higher returns than a term deposit, depending on the performance of the underlying investment asset.
- The principal and returns of the investment are not guaranteed if TIA-i incurs losses or does not perform as expected

Possible Future Gain & Loss (Investment of RM 50,000)

Best Market Simulation		Worst Market Simulation		Base Market Simulation	
Date	Feb 2020	Date	Feb 2020	Date	Feb 2020
OPR	Increase 50 **bps	OPR	Decrease 75 **bps	OPR	Increase 25 **bps
Profit Rate to Investor(s) for 3 month tenure	*3.25%	Profit Rate to Investor(s) for 3 month tenure	*2.00%	Profit Rate to Investor(s) for 3 month tenure	*3.00%
*Number for illustration purpose only ** 1bps = 0.0001		*Number for illustration purpose only ** 1bps = 0.0001		*Number for illustration purpose only ** 1bps = 0.0001	

*This is on the assumption that the current Indicative Profit Rate to Investor(s) for 3 months tenure is 2.75%

Note:

The Best Market and Worst Market scenarios are based on the last ten years' data of Bank Negara Malaysia (BNM)'s highest (26 April 2006) and lowest (8 August 2005) Overnight Policy Rate (OPR) levels, which are assumed to directly impact returns through full transfer of OPR increase/decrease to portfolio returns (i.e. 25 bps increase or 55 bps decrease in returns), assuming all other factors remain the same.

VALUATION

The Bank will perform valuation of the underlying assets of the Fund in accordance with the sound industry practice and consistent with applicable Malaysian Financial Reporting Standards ("MFRS") which will be carried out on a monthly basis.

The Fund performance report will be made available together with the quarterly financial statements at all branches and published via website at <https://www.hlisb.com.my/IA-i>

KEY RISKS
5. What are the key risks associated with this product?

(a) Risk of Capital Loss	<p>The product carries the risk of not recovering the full original investment. To control the risk, the Bank will invest the funds in a diversified portfolio of Bank's qualified financing assets with low risks. The Bank will also use sound investment management techniques. The Bank can do portfolio rebalancing to make sure that assets that no longer comply with the fund's strategies and objectives are rebalanced. Portfolio rebalancing is the process of revising the fractions of a class of assets in a portfolio to maintain the desired level of risk.</p>
(b) Market Risk	<p>Market risk is the possibility for an investor to experience losses due to factors that affect the entire financial markets which may directly or indirectly impact the performance of the underlying assets. The Bank will monitor and manage market risk exposure using existing risk management system. This allows the Bank to manage the fund's position effectively within the approved risk framework.</p>
(c) Liquidity Risk	<p>Liquidity risk is the risk that the Bank may be unable to meet short term redemption demands from Investor(s). Based on the historical trend of the redemption activities, the Bank will formulate the stress test and establish controls to manage the liquidity risk. Stress testing is a technique used to test the ability of the investment to withstand various possible future financial situations. Any mismatches in the amount of cash being transferred into and out of the portfolio will be analyzed and monitored under the liquidity framework as recommended by BNM. The potential loss arising from the liquidity risk for Investor(s) is that there may be lower return and possible capital loss.</p>
(d) Credit Risk	<p>This risk may arise when a great amount of the fund's assets goes into default. This must be managed by the Bank through careful selection of diversified qualified asset portfolios and close monitoring of the performance of the selected assets to ensure the investment complies with the fund's strategies and objectives.</p>
(e) Investment Decision Risk	<p>This risk applies if the market movement does not favor the allocation of assets to be invested in. Hence, careful selection and strict governance must be applied by the Bank in the decision making process.</p>
(f) Regulatory Non-Compliance Risk	<p>Such situation occurs when the investment fails to follow the investment parameters set by the relevant regulators. The risk must be managed by the Bank according to its overall policies and procedures.</p>
(g) Shariah Non-Compliance Risk	<p>This is a risk that arises from the Bank's failure to comply with the Shariah rules and principles determined by the Bank's Shariah Committee or regulatory councils. The Bank will monitor, with guidance from the Bank's Shariah Committee, to ensure that the investment complies with the Shariah rules and principles.</p>
(h) Country Risk	<p>Political and economic stability of the country may influence the growth and performance of the investment asset.</p>
(i) Industry / Sector Risk	<p>Every industry/sector is exposed to various risk elements. As such, diversification and careful selection of such industry/sector are critical to the Bank in managing such risk.</p>

'You are advised to carefully consider all risk factors before making an investment decision'
