**PRODUCT NAME:
TERM INVESTMENT ACCOUNT-i (TIA-i)
PROMOTION**

(Applicable on 1 April 2024 – 30 April 2024)

THIS PRODUCT IS NOT PROTECTED BY PIDM

BRIEF INFORMATION ON THE PRODUCT

1. What is this product about?

Applicable Shariah Contract	TIA-i is a term investment account based on a profit-sharing contract, which is known as <i>Mudarabah</i> contract.
Type of Product	The product is classified as Unrestricted Investment Account (UA). UA refers to a type of investment account where the investor(s), who are also known as Investment Account Holder(s) ("IAH"), allows the Bank to make the ultimate investment decisions without specifying any restrictions and/or conditions.
Parties Involved	The parties involved will be the IAH (i.e. the capital provider) and the Bank (i.e. the entrepreneur). The Bank, acting as the fund manager, will invest on behalf of the IAH. Under this product, the IAH will not be involved in the investment activities.

PRODUCT SUITABILITY

2. Who is this product suitable for?

Type of Customer	<ul style="list-style-type: none"> a) Individual(s); b) Sole-proprietorship(s) (with an Individual CASA/CASA-i).
Investment Objective	Aiming to generate stable and consistent returns over an agreed period of time through low-risk investment.

KEY PRODUCT FEATURES
3. What am I investing in?

Investment Strategy	The fund will be invested in selected qualities of Shariah-compliant financing assets which are Property Financing-i, Personal Financing-i, and Term Financing-i within HLISB.											
Minimum Investment Amount	RM1,000 (Ringgit Malaysia One Thousand)											
Investment Tenure	Three (3) months, six (6) months and twelve (12) months											
Profit Sharing Ratio (PSR)	<ul style="list-style-type: none"> Any profit gained from the TIA-i is shared between Investor(s) and the Bank according to a mutually pre-agreed PSR of 85:15 for three (3) months, six (6) months and twelve (12) months respectively. The PSR may also be changed from time to time. If there is any change in the terms and conditions, the Bank will inform the Investors of the change through the common communication channels of the Bank. If excess profit is generated from TIA-i above the indicative profit rate, Investors agree to forego or waive the excess profit under the Shariah concept of Tanazul. The excess profit will be kept by the Bank. Tanazul refers to the waiver of the right to claim whatever may be specified (which in this context is the excess profit above the indicative profit rate). Under the Mudarabah contract, profits will be shared between the Investors and the Bank according to a mutually pre-agreed PSR. For losses, on the other hand, the financial losses will be borne entirely by the Investors while the Bank, as the Fund Manager (i.e., the Entrepreneur), will suffer losses in terms of time and effort that were spent over the investment and not in monetary terms. The Bank will bear the financial losses if it is due to the Bank's misconduct, negligence, or breach of specified terms. 											
Profit Payment Method	<ul style="list-style-type: none"> Profit payment is calculated daily and credited at the end of the investment tenure Profit payment will be credited into the Investor's Current Account-i/Savings Account-i (CASA-i) within Hong Leong Islamic Bank (HLISB) or Current Account/Savings Account (CASA) within Hong Leong Bank (HLB), based on the agreed PSR.

Note:

The Best and Worst Market scenarios are based on the last 10 years' data from BNM's highest (March 2019) and lowest (March 2022) OPR levels, which are assumed to directly impact returns through the full transfer of OPR increase/decrease to portfolio returns, assuming all other factors remain the same.

The Fund performance report will be made available via the website.

VALUATION

The Bank will perform valuation of the underlying assets of the Fund in accordance with sound industry practice and consistent with applicable Malaysian Financial Reporting Standards (“MFRS”) which will be carried out on a monthly basis.

KEY RISKS
5. What are the key risks associated with this product?

(a) Risk of Capital Loss	<p>The product carries the risk of not recovering the full original investment. To control the risk, the Bank will invest the funds in a diversified portfolio of the Bank's low risk qualified financing assets. The Bank will also use sound investment management techniques. The Bank will do portfolio rebalancing to make sure that assets which no longer comply with the fund's strategies and objectives are rebalanced. Portfolio rebalancing is the process of revising the fractions of a class of assets in a portfolio to maintain the desired level of risk.</p>
(b) Market Risk	<p>Market risk is the possibility for an investor to experience losses due to factors that affect the entire financial market. This may directly or indirectly impact the performance of the underlying assets. The Bank will monitor and manage market risk exposure using the existing risk management system. This allows the Bank to manage the fund's position effectively within the approved risk framework.</p>
(c) Liquidity Risk	<p>Liquidity risk is the risk that the Bank may be unable to meet short-term redemption demands from Investor(s). Based on the historical trend of the redemption activities, the Bank will formulate the stress test and establish controls to manage the liquidity risk. Stress testing is a technique used to test the ability of the investment to withstand various possible future financial situations. Any mismatches in the amount of cash being transferred into and out of the portfolio will be analyzed and monitored under the liquidity framework as recommended by BNM. The potential loss arising from the liquidity risk for Investors is that there may be lower returns and possible capital loss.</p>
(d) Credit Risk	<p>This risk may arise when a great amount of the fund's assets goes into default. This will be managed by the Bank through careful selection of diversified qualified asset portfolios and close monitoring of the performance of the selected assets to ensure the investment complies with the fund's strategies and objectives.</p>
(e) Investment Decision Risk	<p>This risk applies if the market movement does not favor the allocation of assets to be invested in. Hence, careful selection and strict governance will be applied by the Bank in the decision-making process.</p>
(f) Regulatory Non-Compliance Risk	<p>Such a situation occurs when the investment fails to follow the investment parameters set by the relevant regulators. The risk will be managed by the Bank according to its overall policies and procedures.</p>
(g) Shariah Non-Compliance Risk	<p>This is a risk that arises from the Bank's failure to comply with the Shariah rules and principles determined by the Bank's Shariah Committee or regulatory councils. The Bank will monitor, with guidance from the Bank's Shariah Committee, to ensure that the investment complies with the Shariah rules and principles.</p>
(h) Country Risk	<p>The political and economic stability of the country may influence the growth and performance of the investment asset.</p>
(i) Industry / Sector Risk	<p>Every industry/sector is exposed to various risk elements. As such, diversification and careful selection of such industry/sector is critical to the Bank in managing such risks.</p>

'You are advised to carefully consider all risk factors before making an investment decision'
